

Fingers and Toes

Here is a chance for your child to respond to your voice and develop their motor skills

- ① Hold your baby close to you.
- ② Say a rhyme or sing a song involving their fingers and toes e.g. Round and round the garden.
- ③ Encourage them to explore their own fingers and toes.

Find lots of songs and nursery rhymes, in our nursery rhyme section on iChild, where you can print off all your child's favourites!
