

Subitising

Frames

Mathematics

Helping children to link the number symbol (numeral) with its cardinal number value.

Physical Development

Scissor skills develops fine motor control and precision, which helps hand-eye coordination.

Instructions:

Cut out (or ask the children to cut out) the Five Frame rows on the next page, as well as the shapes on the following page.

Place a Five Frame with a group or pair of children. Ask them to fill in their frames with different quantities of their shapes.

You could also supply physical items, such as buttons or stars instead of the cut-out shapes.

You could also use the PowerPoint to help display the maths.
