

MONTHS OF THE YEAR

Understanding the world

Developing children's understanding of the months of the year is an important step in understanding the framework of their day to day world.

Physical Development

Scissor skills develops fine motor control and precision, which helps hand-eye coordination.

Instructions

The next page has flashcards, which the children can cut out. The following pages are a bigger version of each month, which the children can also cut out and display. You can use the PowerPoint to display the months and call them out with the children.

MONTHS OF THE YEAR

January

February

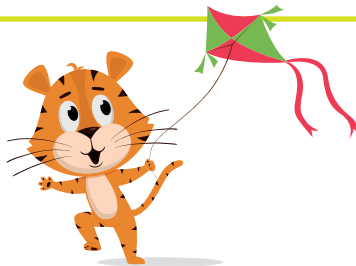

March

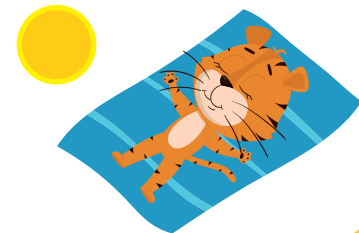

April

May

June

Simply print out and cut along the dotted lines!

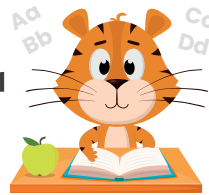

July

August

September

October
