

Understanding the World

Knowing about interesting places to visit helps develop children's cultural capital.

We've selected four special places, which you can discuss with the children.

The second page is blank for you to add in your own special places. You can even use the little map to deepen children's understanding of where their home is in relation to the country.

You can use the PowerPoint to help display these places in the classroom.

Captivating
Classrooms™
