These can also be found within this PDF and can be placed on a learning wall as they are discussed during the presentation.

Resources for the lesson

- Provide a range of drawing materials: different HB graphite pencils, charcoal, crayons, colouring pencils, for the children to use and experiment with in class.
- Ensure each child has plain paper or their sketchbooks.
- Collect some plants and flowers – these could be living or dried. You might decide to go outside and find flowers and plants growing in green spaces.

PowerPoint presentation

The accompanying PowerPoint presentation has 19 slides with the following learning points:

- Slides 1 to 7: provide a brief introduction and explore different materials which can be used to create drawings, for example pencils, charcoal and crayons.

Activity 1 (slide 8)

- Slide 8: supports children to experiment with different types of materials for drawing and creating a range of techniques. Ask the children to try using different materials and see which effects they can create.
- Slides 9 and 10: take a closer look at the observation skills used for drawing 2D shapes, including the use of line and shade.
- Slides 11 and 12: move on to drawing a 3D object, for example a cup or mug. Children working at greater depth can try the more challenging activity of drawing and shading an apple.

Activity 2 (slides 13 to 17)

- Slides 13 to 17: move on to choosing and then drawing a plant or flower. The children will need to pay particular attention to the layout, shape, colour, outline, detail, shading/texture and composition of their drawings.
- Slide 18: includes some key vocabulary to include on the working wall.
