

Firework Picture

Here's a fun way to make a firework picture!

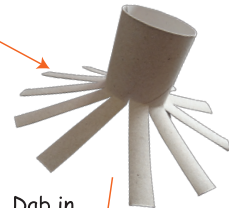

You will need

*Sheet of black card,
Toilet (or kitchen) rolls, scissors,
paper plates and red, blue,
white and yellow paint.*

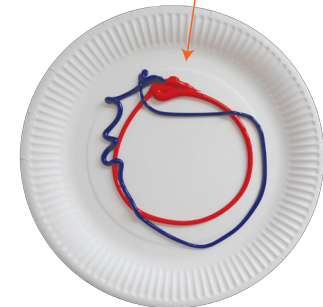

Instructions

- 1 Cut all the way around the tube, making sure the cuts are the same length and the same distance apart. Cut a few different tubes, making the length and spacing of the cuts different on each one.
- 2 Fan out the cut sections.
- 3 Pour a circle of red paint, then a circle of blue paint onto one of the paper plates. Pour a circle of yellow and a circle of white paint onto another paper plate.
- 4 Dab a toilet (or kitchen) roll onto one of the paint plates then press onto the black card. Use a different tube to make more marks and colours. Be as creative as you like!

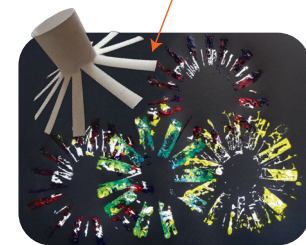

Cut slits in the toilet roll then fan out the ends

Dab in the paint

Press into the black card

You now have a fantastic
Firework Picture!
