

Dragon Craft

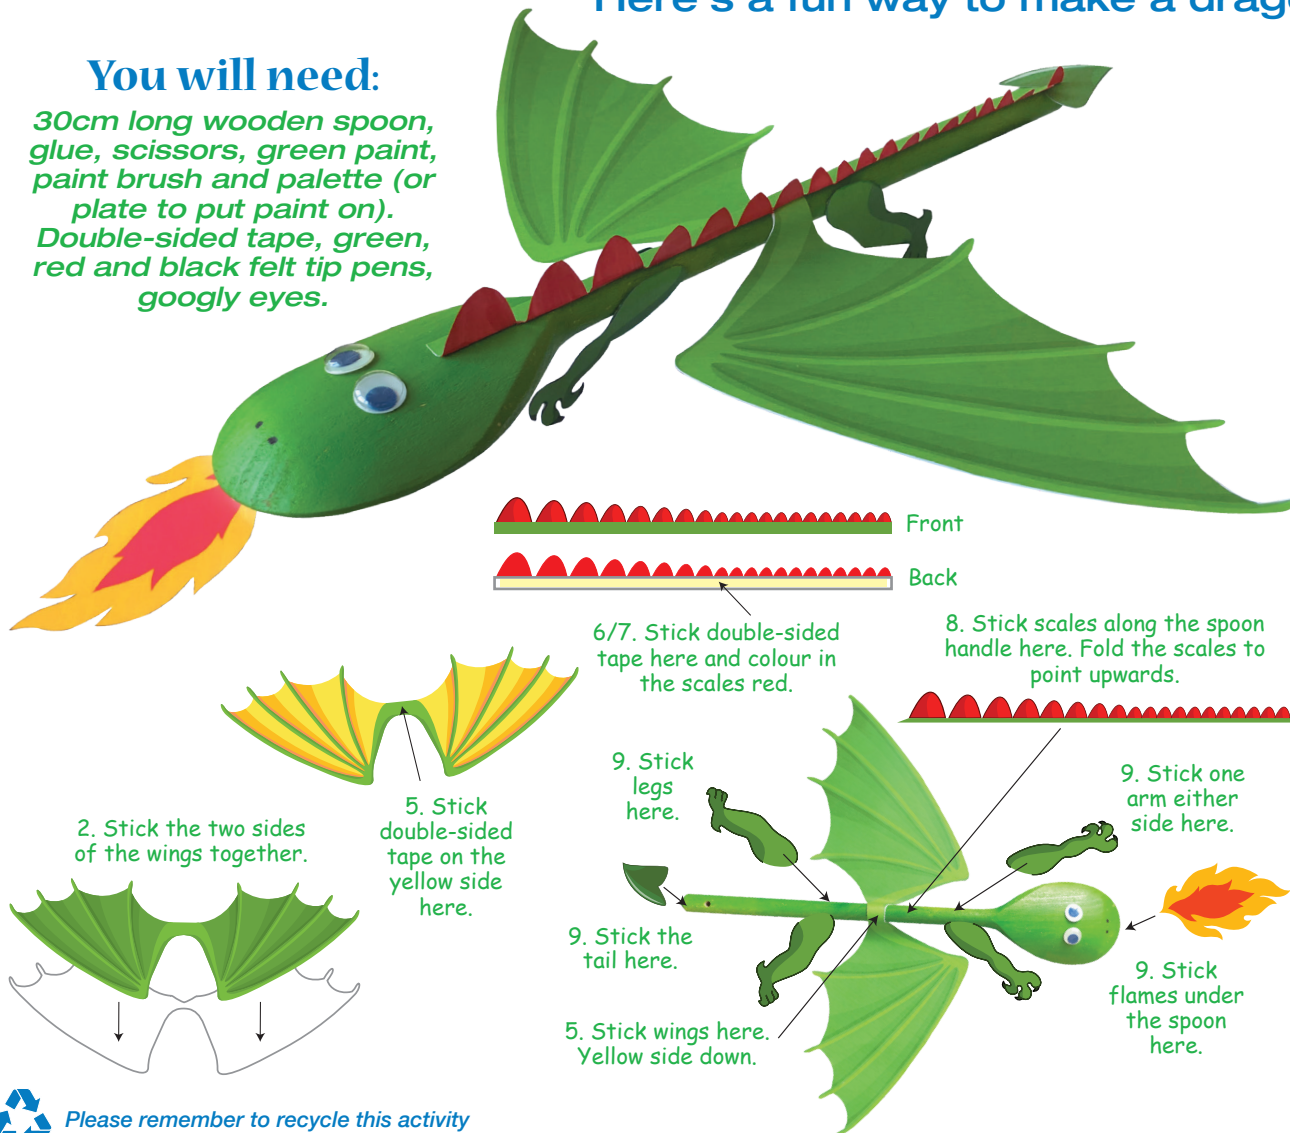

Here's a fun way to make a dragon.

You will need:

30cm long wooden spoon, glue, scissors, green paint, paint brush and palette (or plate to put paint on). Double-sided tape, green, red and black felt tip pens, googly eyes.

Instructions

- 1 Paint the wooden spoon green.
- 2 Print pages 3 to 5 on to printer card. Cut out the dragon wings and stick the two sides together. Cut out the legs, arms, tail, flames and scales.
- 3 Colour the backs of the legs and arms green using a felt tip pen.
- 4 Once the spoon is dry, stick on the googly eyes. Then draw two black dots for nostrils.
- 5 Attach the wings by putting double-sided tape where shown on the yellow side of the wings and sticking to the spoon.
- 6 For the scales. With the printed side down on the table, put double-sided tape along the white straight edge making sure not to go over the scales.
- 7 Colour the scales red with a felt tip pen so they're red both sides.
- 8 Stick the scales along the length of the spoon, then fold the red scales to point upwards.
- 9 Stick the legs, arms, tail and flames in place where shown.

Please remember to recycle this activity

You now have a fantastic
Dragon!
