

Making a Christmas Piggy Bank

Here's a fun way to make a Christmas piggy bank

You will need:

Coloured pens or pencils,
scissors, and glue.

Instructions

1 Print out the template onto card. (Alternatively print onto paper and stick onto card). Colour in the box template on page 2, or create your own design on page 3 by cutting out the images on page 3 and 4.

2 Cut out the box shape. Fold and glue the tabs to form a box shape. Remember to cut the hole where the money will go.

Close the lid of your box and you're ready to start saving!

Alternatively, if you already have a cardboard box, why not recycle it, and then decorate your box as above.
