

# Halo

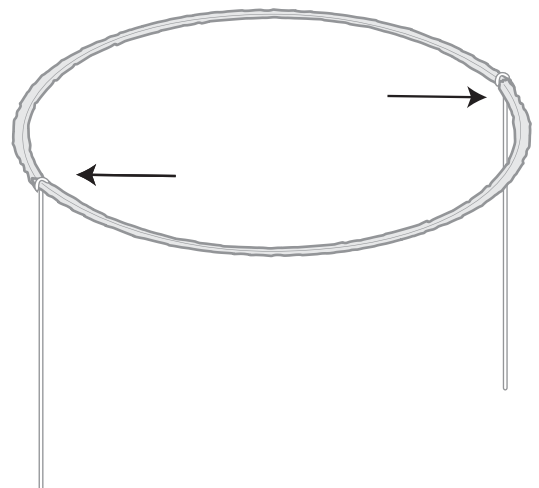

## for Angels and Fairies

You will need **white, silver or gold pipe cleaners, or silver/white wired tinsel, strong wire, tape, plus an old headband.**

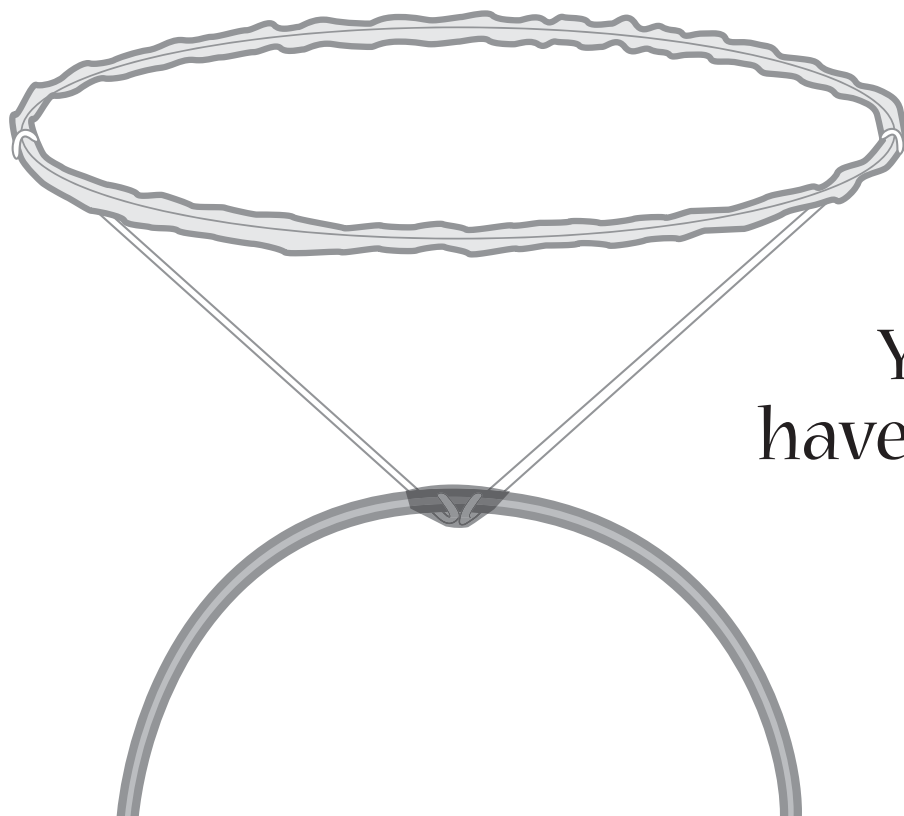

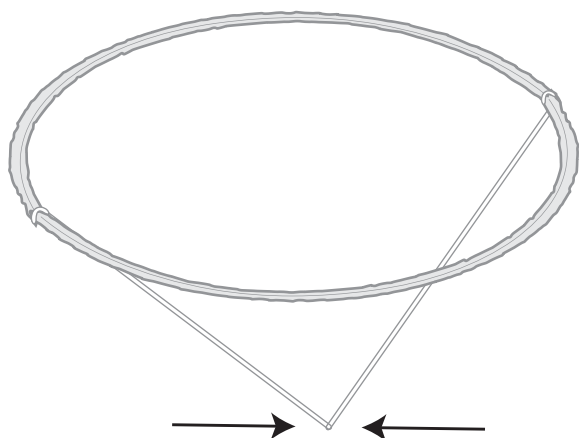

- 1 Join the two ends of the pipe cleaners together to create the halo shape. You can use wired tinsel to create the halo shape if you like.

- 2 Cut some strong wire or a pipe cleaner a little bit bigger than the height you want your halo to be above your head. (About half a pipe cleaner is a good height) Attach them to both sides of the halo. (Do the same if you have a wired tinsel halo).

- ③ Bring the two ends that are left into the middle and join together. Bend the ends around the headband and secure firmly with tape.

You now  
have a beautiful  
Halo!
