

Paper Plate Sheep

Here's a fun way to make a sheep.

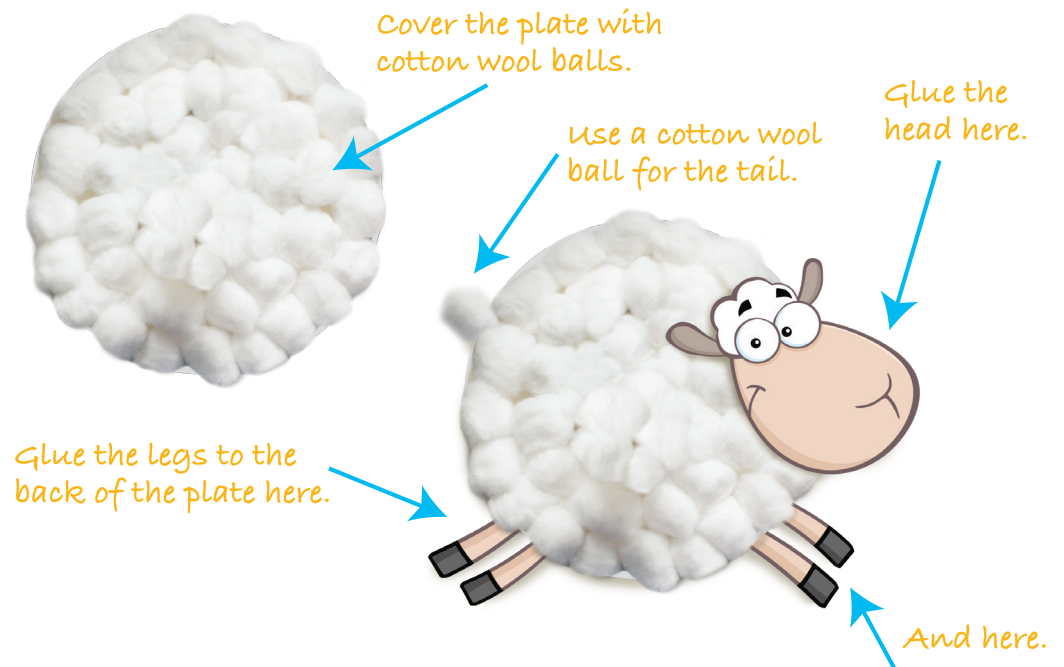

You will need:

1 white paper plate,
1 sheet of A4 thin card,
scissors, glue, cotton
wool balls (or white
tissue paper).

Instructions

- 1 Stick cotton wool balls all over the back of the paper plate. (Alternatively you can use scrunched up white tissue paper). Stick one cotton ball over the edge where shown above, to make a tail.

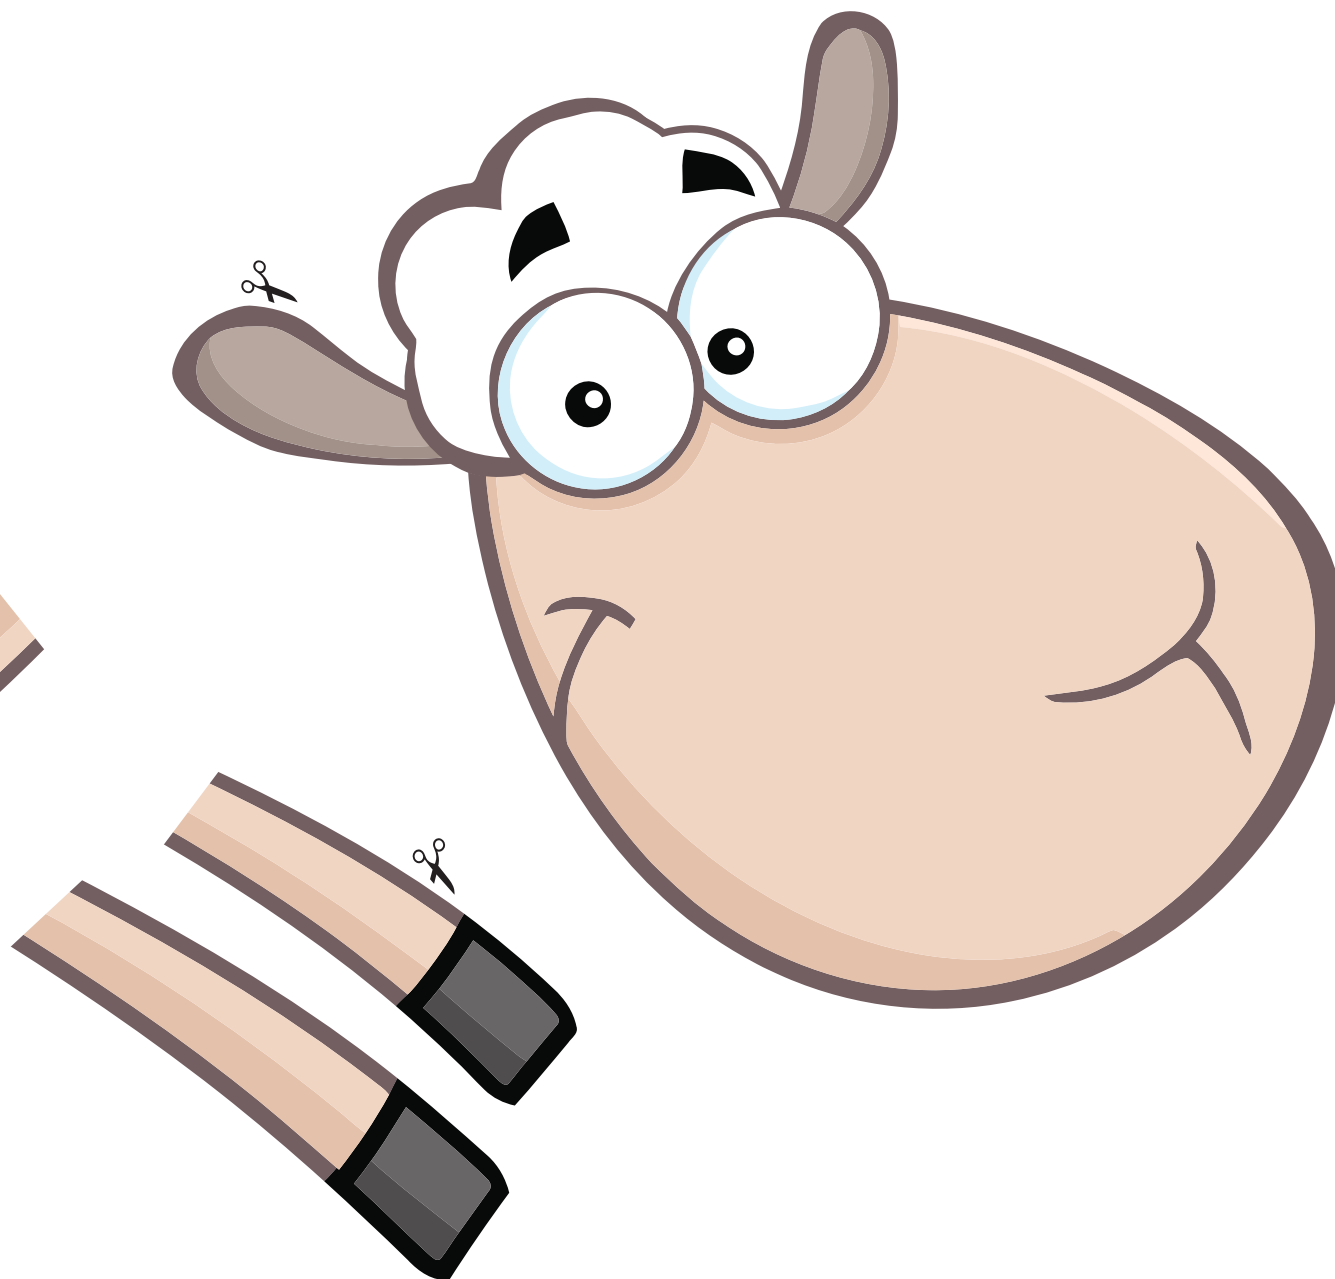

- 2 Print the head and legs on the next page. Stick onto thin card (or print directly onto thin card), then cut them out. Glue the head in place, then glue the legs to the back of the plate.

You now have a beautiful
sheep!
