

Poles and the Equator

Geography KS1

Poles and the Equator

Geography

Key Stage 1

Curriculum Objectives:

Pupils should develop knowledge about the world...Pupils should be taught to:

Human and physical geography

identify the location of hot and cold areas of the world in relation to the Equator and the North and South Poles

Keywords

Equator. North Pole. South Pole. The Arctic. Antarctica. Northern hemisphere. Southern hemisphere. These can also be found at the end of this PDF.

PowerPoint presentation

The accompanying PowerPoint presentation has 12 slides with the following learning points:

- The location of the Equator and the North and South Poles
- The temperatures the North and South Poles reach during their winter and summer
- The temperature at the Equator
- Freezing and boiling point of water
- Temperatures of hottest places around the world
- Location of the Northern and Southern Hemispheres
- Seasons in the Northern and Southern Hemispheres are opposite

Activity:

- Role play as travel agents. The PowerPoint includes a map. The children work out where their friends should go if they want to holiday in the sun or the snow.
