

Hanging Bats!

These hanging bats would look great hung from the window or door. Or simply make them to dress your dining table!

1. Cut along the solid lines.
2. Fold along the dotted lines, and with glue or double-sided tape, stick the tabs down.
3. Slot the ears (pink side forward) on the top of the bats head, and glue the feet on the base of the model.
4. Cut the wings (page 2) and glue together, so both sides of the wing have colour to them.
5. Hang!!
