

Race to £5! - Saving Game

Activity 7

This game will allow your child to develop their social skills through interacting with others, problem solving and making decisions.

The object of this game is to be the first person to save £5.

You will need

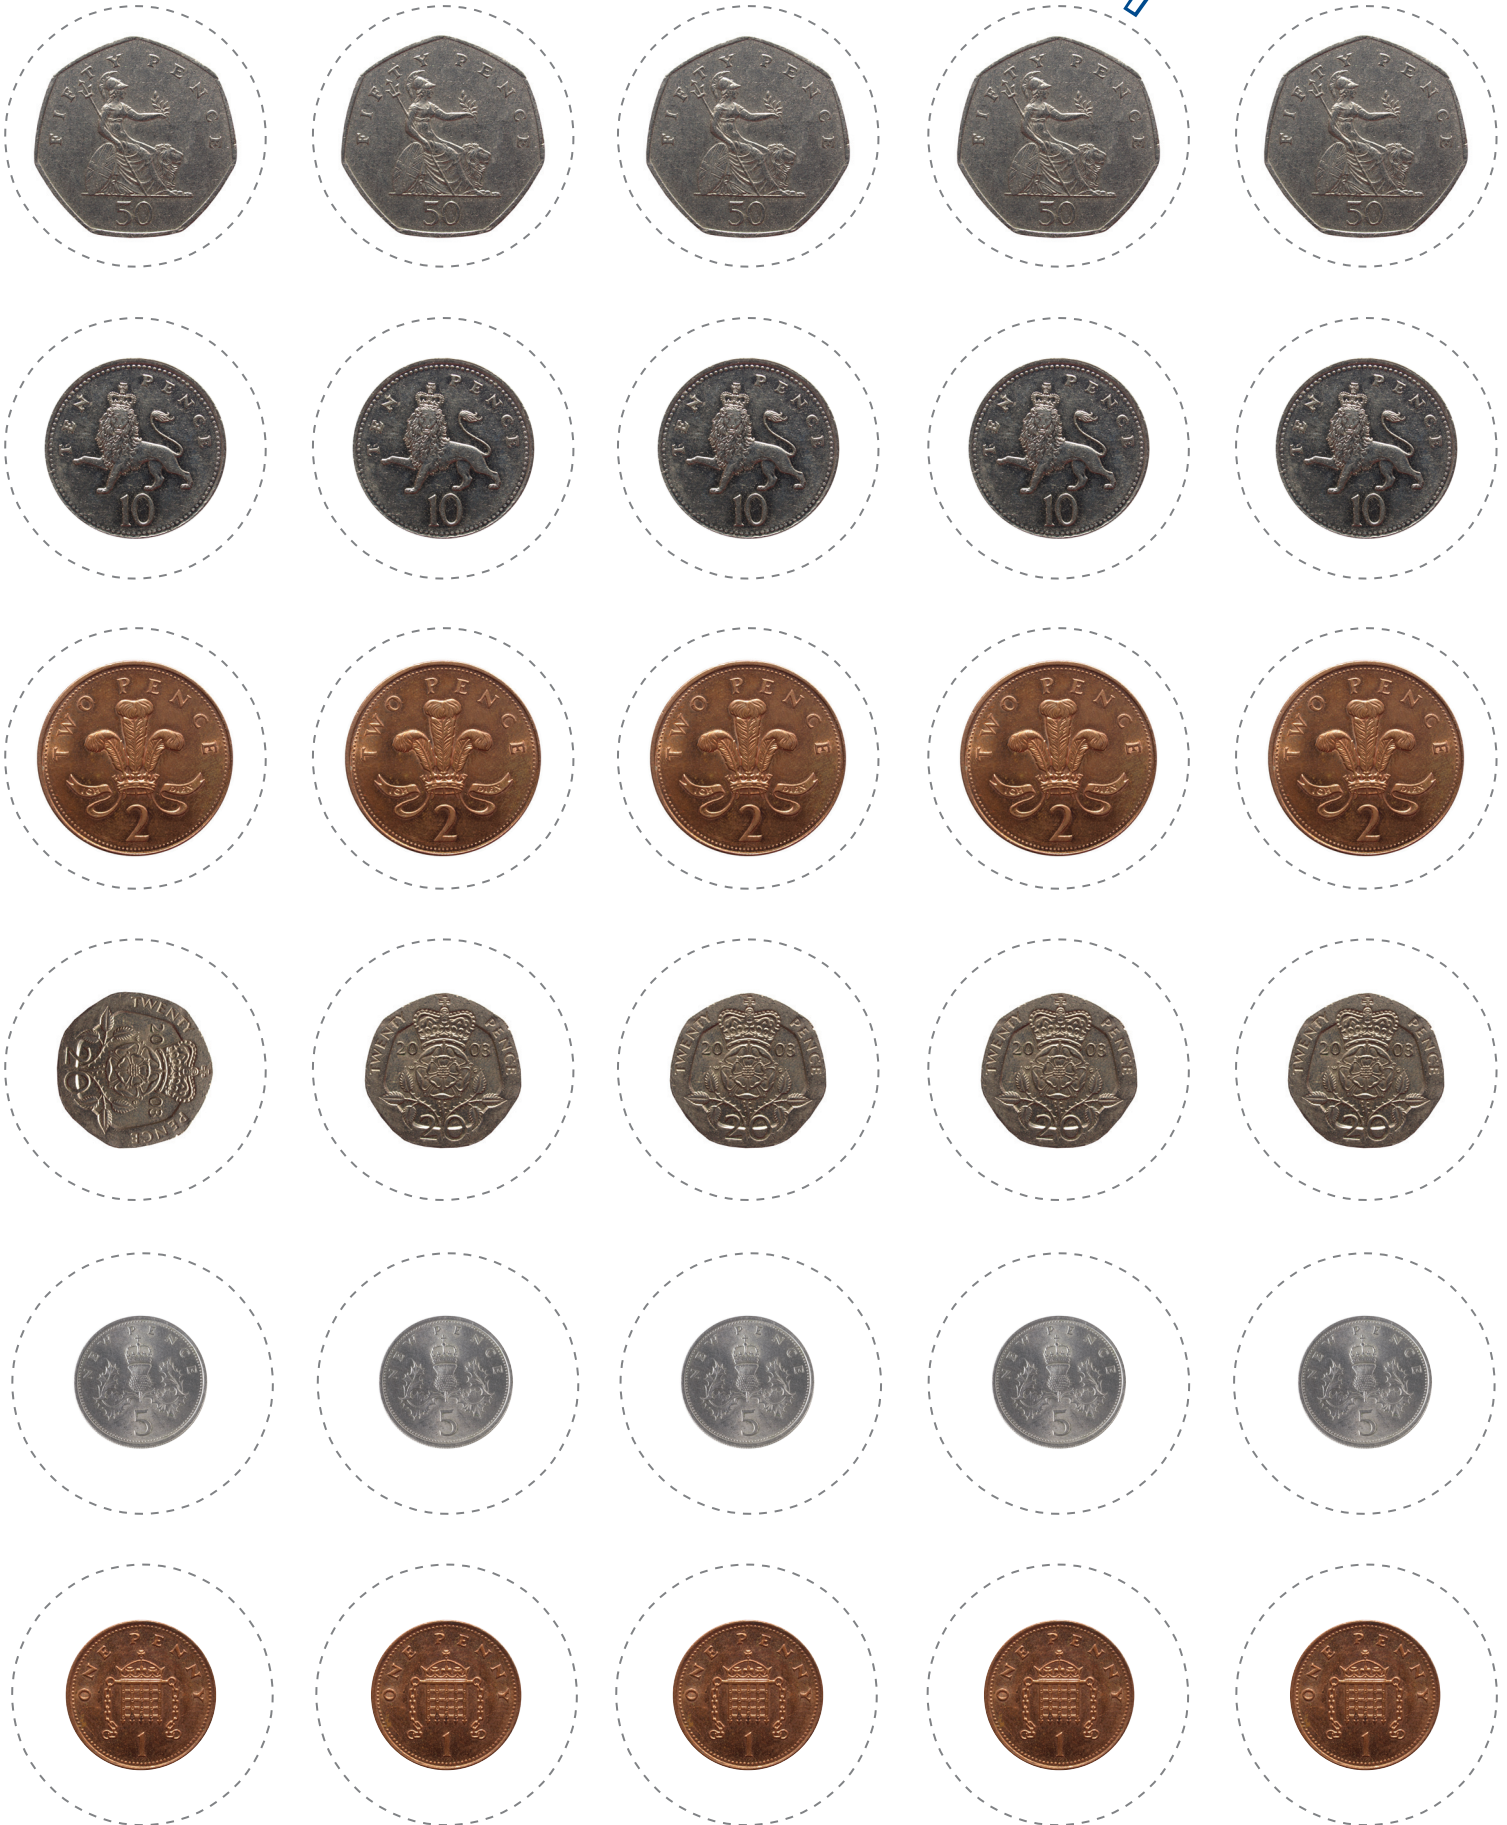

Card and scissors.

How to play

- Print out the board game. Cut out the counters, cardboard coins and spinner (or you can use dice).
- Each player must choose a counter.
- If you land on one of the **stars** then you pick up the amount of money shown on the square. If you land in a **puddle** then you may have to give something back - if you don't have enough money then you must give back what you have.
- Each time you pass 'Start', collect **£1**.
- Each player goes around the board until they have saved **£5**. When this happens they call out "**Finished**".
- The game stops and the amount is counted. If they have collected **£5** they are declared the winner, if not the game goes on.

Stick on to card and cut out these coins.

Stick on to card and cut out these coins.
