

Shape time

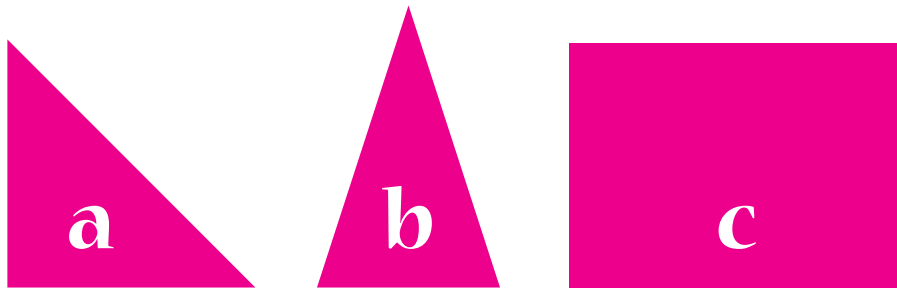

Underline the shapes in this story.

Mr Circle and Mrs Triangle lived next door to each other. Mrs Triangle lived in house shaped like rectangle whilst Mr Circle lived in a house shaped like an octagon, with a circle of trees around the outside. Nearby there was a square playground which had a diamond marked on it. The local children played a game of tag on this diamond, when they all got into a circle and one person chased another around the outside.
