Maths in Minutes Answers!*

Round these numbers to the nearest 10	Find the value of the fraction	Addition	Subtraction	Multiplication
27 ➡ 30	$\frac{1}{3}$ of 3 = 1	11 + 10 = 21	22 - 10 = 12	11 x 10 = 110
93 ➡ 90	$\frac{1}{5}$ of 100 = 20	25 + 12 = 37	50 - 26 = 24	3 x 15 = 45
15 ➡ 20	$\frac{1}{10}$ of 200 = 20	78 + 22 = 100	71 - 31 = 40	91 x 2 = 182
98 ➡ 100	$\frac{1}{3}$ of 39 = 13	37 + 14 = 51	110 - 15 = 95	6 x 7 = 42
62 ➡ 60	$\frac{1}{4}$ of 28 = 7	6 + 66 = 72	90 - 45 = 45	8 x 9 = 72
176 ➡ 180	$\frac{1}{10}$ of 20 = 2	9 + 19 = 28	16 - 12 = 4	4 x 150 = 600
564 ➡ 560	$\frac{2}{5}$ of 50 = 20	110 + 72 = 182	72 - 42 = 30	3 x 110 = 330
406 ➡ 410	$\frac{2}{3}$ of 60 = 40	16 + 16 = 32	156 - 26 = 130	9 x 7 = 63
735 ➡ 740	$\frac{3}{10}$ of 90 = 27	44 + 45 = 89	101 - 41 = 60	74 x 2 = 148
911 ➡ 910	$\frac{1}{3}$ of 33 = 11	29 + 39 = 68	60 - 35 = 25	61 x 10 = 610
