

## Analogy Questions

To solve an analogy question you must first identify the relationship between the first pair, and then choose a box from the answer options that would complete the second pair with the same relationship. Circle the correct answer.

|    |                                                                                     |       |                                                                                     |    |                                                                                     |       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
