

Using a Calculator

When dealing with lots of figures and calculations it's a good idea to have a calculator handy. Sam Jackson runs a small shop and goes to the cash and carry every week. Here are some of his weekly bills. Use your calculator to add them up.

Week 1

40 tins of beans at 25p a tin.

20 toilet rolls at 40p a roll.

15 bottles of ketchup at 60p a bottle.

30 tins of peaches at 38p a tin.

20 litre bottles of lemonade at 35p a bottle.

Total _____

Please remember to recycle this activity

Week 2

20 boxes of firelighters at 23p each.

30 packets of washing powder at £1.85p each.

10 tins of pineapple chunks at 36p a tin.

40 choco bars at 45p each.

10 packets of sliced cheese at 95p a packet.

Total _____

What is the total for the two weeks?
