

Carnivores and Herbivores

Polar bears and elephants are having to change their ways as their food supplies start to disappear. Why is this happening and what can we do to stop it? Put these ten creatures in the correct lists and next to them, write two things they might eat. It should be remembered that some creatures will eat almost anything if they become desperate.

POLAR BEAR **ELEPHANT** **RABBIT**

LION COW EAGLE HIPPOPOTAMUS

ZEBRA MONKEY TIGER

CARNIVORE

[illegible]

HERBIVORE

[illegible]
