

Around the Solar System

These intergalactic travellers have just arrived in our **solar system**. See if you can help them name the **planets**. Fill in the missing letters.

Saturn
Earth
Mars
Sun
Uranus
Neptune
Jupiter
Venus
Moon
Mercury

Please remember to recycle this activity

Find out what you can on the Internet or in a book about each of the planets and write down **one sentence** about each one.

Mars _____

Jupiter _____

Saturn _____

Mercury _____

Uranus _____

Neptune _____

Earth _____

Venus _____

Sun _____

The Moon _____
