

Winter Camouflage

These animals are white to camouflage them in the snow. This keeps them safe or helps them hunt.

Arctic Fox

Their brown summer fur turns thick and white in the winter snow.

Ermine

Their white fur is brown in the summer, when we call them stoats.

Arctic Hare

Arctic hares have white fur in the winter and brown fur in the summer.

Seal Pup

They have white, baby fur to hide them when their mothers go hunting.

Snow Leopard

They are white all year-round because they live in the snowy Himalayas.

Snowy Owl

Snowy owls are white all the time because their home is always snow-bound.

Can you think of any other animals that are camouflaged? Write your answers on a separate sheet.
